## EXPLANATION.

**I**N each Road you have, 1<sup>st</sup>. named the Place whence, and to which the Road goeth, as Number 1. from London to Aberistwith, and in the Cross Roads, Cambridg to Coventry, &c. then follows the Names and perticular Distance of each Remarkable Place you pass.

The Numbers under C. shews you the Vulgar Computation, the Numbers under M. F. gives you the Measured Distance by Miles and Furlongs.

And by casting up the Numbers you have the distance of any one Town from another as fol 1. No 1. from London to Stoken-church you will find it by computation 35 miles & by Measure 39 mile 2 furl of which 8. makes a mile, & so of the Rest .

But we have given you the Totalls of the Computation and Measure of each Road with the Cities and Market Townes thereon, in the foregoing Tables

Where the Computation is omitted or that Town is not a mile from the Next admits of some odd parts, of a Mile & in such cases we have given the Computed Distance from the Town before to the Town following the Omission.

As in the Roads to Aberistwith, from Kensington Gravel-pits to Shepheards-Bush, it is by Measure 1. Mile 7. Furlongs but the Computation is omitted till you come to Acton, which is accounted 3. miles from Kensington Gravel-pits.

## Explanation.

We have Devided the *Roads* under Two Heads, *Roads* from *London*, and *Cross Roads*.

In the *Roads* from *London* there are divers that go part of the Way, and then turn out of the great *Roads*; & to avoid Repeating the Towns and their Distances, till you come to the place where you leave the great *Road*, you are Referred to the *Road* out of which each Branch Issues.

As in the *Road* from *London* to *Buckingham* you are directed to Number 1. for the Way as far as *Uxbridg*, and in the *Road* from *London* to *Montgomery*, you are Referred to Number 1. for the Way as far as *Worcester*, where the *Road* to *Aberistwith* and the *Road* to *Montgomery* part, and so of the Rest.

The *Cross Roads* are such as Lead from one City or great Town to another, and have no Repetition or Reference: they are placed Alphabetically where the Town that begins the *Road* takes place, as the Town that ends the *Road* doth in those from *London*, but the *Tables* direct you readily to find either.

For Distinction Cities are in **CAPITALS**, Market-Towns in *Italique*, and Post-Towns markt thus \* as Page 1. \**Waltham-Cross* is a Post and not a Market-Town, *Hodsdon* is a Market and not a Post-Town, \**Ware* is both Market and Post, &c.
